TECHNICAL SKILLS

Languages
Java, JavaScript, C, C#,
Python, HTML, CSS

AI Tools
Claude, GPT, Gemini,
Copilot Studio (agents)

Platforms & Cloud
Power Apps, Power Automate,
Power BI, Dataverse/SharePoint,
SSRS, Azure, AWS basics

Practices
SQL, REST APIs, XML/JSON,
Agile/Scrum, System Testing

Creative Tools
Adobe Premiere Pro,
Adobe Photoshop

RAFIK SHAMA

IT-Design: System Design Graduate · Developer Intern

IT-Design: System Design graduate from Karlstad University who designs and builds systems with whatever tools the problem calls for, from low code Microsoft Power Platform builds to handwritten C# and Python. Comfortable working independently or in teams to ship practical, user focused solutions.

EXPERIENCE

Developer Intern · AX Advisory Group, Dallas, TX

Nov 2025 to Present

- Building a complete HR management system using Power Apps, Power Automate, and Power BI for a live consultancy client
- Working directly with Microsoft cloud ecosystems (Azure) and Dataverse/SharePoint data models alongside consultants and developers

Freelance Video Editor · Independent

2025 to Present

- Editing long form and short form YouTube videos for clients in Adobe Premiere Pro, from raw footage to final export
- Designing thumbnails and supporting graphics in Adobe Photoshop

System Tester · Karlstad University, Capstone Project

Spring 2026 (2 months)

- One of 2 testers on a Scrum team of 7 (2 testers, 2 developers, 2 architects, 1 lead) building a Java REST API integration between a lead generation system and Dolibarr CRM for a simulated consultancy client
- Wrote and executed 37 test cases, each linked to a specific requirement, covering functional flows, role based access, logging, and GDPR compliance. Identified 4 defects, including a GDPR gap where sensitive data appeared in plaintext logs

Store Associate · ICA Supermarket, Karlstad

2023 to 2025

- Cashier and inventory operations in a fast paced retail environment; built strong communication and teamwork skills

PROJECTS

- Scout (2026):** Cut VOD review time by about 82% (4 VODs, 6 to 10 hrs each, scanned in 21m52s vs. roughly 2 hrs manually at 30 min/VOD) by building an Electron app with faster-whisper transcription and fuzzy name matching that automatically cuts timestamped clips.
- Nexus (2026):** A local voice assistant, activated by a wake word, running speech to text and LLM reasoning fully on the device (faster-whisper, Ollama), with a live Tauri system monitoring dashboard and streamed spoken replies.
- Personalsystem / HR Management System (2025 to 2026):** Power Apps + Power BI HR platform with Power Automate workflows and a Dataverse/SharePoint data model.
- CutRate (2026):** Desktop income tracker for freelance video editing (long form videos, Shorts, viral bonuses) with automatic two way Excel sync and included earnings charts.
- Media Store Inventory & POS (2025):** C# WinForms point of sale and warehouse system with CSV storage and live XML API price/stock sync.

EDUCATION

B.Sc. IT-Design: System Design

Karlstad University · 2023 to 2026 (degree conferral pending)

Focus: software engineering, cloud computing, structured data, system integration

CERTIFICATIONS

- Microsoft Copilot Studio Agent Academy (Operative)
- SQL Server Reporting Services (SSRS), Udemy
- Power Apps, Power Automate, Power BI Coursework
